

HIPAA Readiness report for Polygraf Inc.

Generated on 17 August 2026

Report summary

This report provides a summary of Polygraf Inc.'s readiness posture for HIPAA compliance as of 17th August 2026. Sprinto continuously monitors the security and readiness posture of Polygraf Inc. to ensure you have a transparent view into how they have setup Sprinto to meet industry standards. Below is a list of controls implemented by the organization to meet the compliance requirements. Sprinto achieves this by connecting to the systems, tools and policies of the company, and running continuous checks to determine the health of the controls.

STATUS	VERIFICATION
 Check is healthy	MONITORED Sprinto pulls evidence automatically from connected systems.
 Check is work in progress	DECLARED Your team completes tasks and uploads evidence in Sprinto.

164.310

Physical safeguards

164.310(a)(1)

Facility access controls: Implement policies and procedures to limit physical access to its electronic information systems and the facility or facilities in which they are housed, while ensuring that properly authorized access is allowed.

INTERNAL CONTROLS AND CHECKS

Control SDC 381

Entity has documented policies and procedures to manage physical and environmental security.

MONITORED via 2 checks

Physical and Environmental Security Procedure

Physical & Environmental Security Policy

Control SDC 21

Entity performs a formal vendor risk assessment exercise annually to identify vendors that are critical to the systems' security commitments and requirements.

MONITORED via 2 checks

Vendor risk assessment should be conducted periodically

Vendor Management Policy

Control SDC 29

Entity's Senior Management reviews and approves the "Vendor Risk Assessment Report" annually.

MONITORED via 3 checks

Vendor risk assessment should be reviewed by senior management

Vendor Management Policy

Vendor Management Procedure

Control SDC 68

Entity has a documented policy and procedures to manage Vendors/third-party suppliers and provides guidance to staff on performing a risk assessment of such vendors

MONITORED via 1 check

Vendor Management Policy

164.310(a)(2)(i)

Contingency operations: Establish (and implement as needed) procedures that allow facility access in support of restoration of lost data under the disaster recovery plan and emergency mode operations plan in the event of an emergency.

INTERNAL CONTROLS AND CHECKS

Control SDC 53

Entity has established a policy and procedure which includes guidelines to be undertaken in response to information security incidents.

MONITORED via 2 checks

Incident Management Procedure

Incident Management Policy

Control SDC 392

Entity has documented guidelines to manage Disaster Recovery that establish guidelines and procedures for continuing business operations in case of a disruption or a security incident

MONITORED via 2 checks

Business Continuity Plan

Business Continuity & Disaster Recovery Policy

**Control** SDC 393

Entity has documented policies and procedures that establish guidelines for continuing business operations and facilitate the application of contingency planning controls.

MONITORED via 2 checks

Business Continuity Plan	✓
Business Continuity & Disaster Recovery Policy	✓

164.310(a)(2)(ii)

Facility security plan: Implement policies and procedures to safeguard the facility and the equipment therein from unauthorized physical access, tampering, and theft.

INTERNAL CONTROLS AND CHECKS**Control** SDC 381

Entity has documented policies and procedures to manage physical and environmental security.

MONITORED via 2 checks

Physical and Environmental Security Procedure	✓
Physical & Environmental Security Policy	✓

Control SDC 21

Entity performs a formal vendor risk assessment exercise annually to identify vendors that are critical to the systems' security commitments and requirements.

MONITORED via 2 checks

Vendor risk assessment should be conducted periodically	✓
Vendor Management Policy	✓

Control SDC 29

Entity's Senior Management reviews and approves the "Vendor Risk Assessment Report" annually.

**MONITORED** via 3 checks

Vendor risk assessment should be reviewed by senior management	✓
Vendor Management Policy	✓
Vendor Management Procedure	✓

Control SDC 68

Entity has a documented policy and procedures to manage Vendors/third-party suppliers and provides guidance to staff on performing a risk assessment of such vendors

MONITORED via 1 check

Vendor Management Policy	✓
--------------------------	---

164.310(a)(2)(iii)

Access control and validation procedures: Implement procedures to control and validate a person's access to facilities based on their role or function, including visitor control, and control of access to software programs for testing and revision.

INTERNAL CONTROLS AND CHECKS**Control** SDC 21

Entity performs a formal vendor risk assessment exercise annually to identify vendors that are critical to the systems' security commitments and requirements.

MONITORED via 2 checks

Vendor risk assessment should be conducted periodically	✓
Vendor Management Policy	✓

Control SDC 29

Entity's Senior Management reviews and approves the "Vendor Risk Assessment Report" annually.

MONITORED via 3 checks

Vendor risk assessment should be reviewed by senior management	✓
--	---

Vendor Management Policy

Vendor Management Procedure

Control SDC 30

Entity reviews and evaluates all subservice organizations periodically, to ensure commitments to Entity's customers can be met.

MONITORED via 2 checks

Vendor risk assessment should be conducted periodically

Vendor Management Policy

Control SDC 68

Entity has a documented policy and procedures to manage Vendors/third-party suppliers and provides guidance to staff on performing a risk assessment of such vendors

MONITORED via 1 check

Vendor Management Policy

Control SDC 33

Entity has documented policies and procedures to manage Access Control and an accompanying process to register and authorize users for issuing system credentials which grant the ability to access the critical systems.

MONITORED via 2 checks

Access Control Procedure

Access Control Policy

Control SDC 34

Entity ensures that logical access provisioning to critical systems requires approval from authorized personnel on an individual need or for a predefined role.

MONITORED via 6 checks

User access to critical system should be validated by roles

Role based access should be setup	✓
HR Security Procedure	✓
Access Control Procedure	✓
HR Security Policy	✓
Access Control Policy	✓

Control SDC 42

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed	✓
Users of critical system should be identified	✓
Access Control Procedure	✓
Access Control Policy	✓

Control SDC 43

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that administrative access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed	✓
Users of critical system should be identified	✓
Access Control Procedure	✓
Access Control Policy	✓

164.310(a)(2)(iv)

Maintenance records: Implement policies and procedures to document repairs and modifications to the physical components of a facility which are related to security (for example, hardware, walls, doors, and locks).

INTERNAL CONTROLS AND CHECKS

Control SDC 48

Entity has a documented policy that provides guidance on decommissioning of information assets that contain classified information.

MONITORED via 1 check

Media Disposal Policy

**Control** SDC 381

Entity has documented policies and procedures to manage physical and environmental security.

MONITORED via 2 checks

Physical and Environmental Security Procedure

Physical & Environmental Security Policy

**Control** SDC 31

Entity has documented a set of policies and procedures that establish expected behavior with regard to the Company's control environment.

MONITORED via 1 check

Org policy should be defined

**164.310(b)**

Workstation use: Implement policies and procedures that specify the proper functions to be performed, the manner in which those functions are to be performed, and the physical attributes of the surroundings of a specific workstation or class of workstation that can access ePHI.

INTERNAL CONTROLS AND CHECKS

Control SDC 104

Entity has documented policies and procedures for endpoint security and related controls.

**MONITORED** via 3 checks

Endpoint Security Policy	✓
Asset Management Policy	✓
Asset Management Procedure	✓

Control SDC 44

Where applicable, Entity ensures that endpoints with access to critical servers or data must be protected by malware-protection software.

MONITORED via 5 checks

Staff devices should have antivirus running	✓
Endpoint Security Policy	✓
Asset Management Policy	✓
Physical and Environmental Security Procedure	✓
Asset Management Procedure	✓

Control SDC 45

Where applicable, Entity ensures that endpoints with access to critical servers or data must be encrypted to protect from unauthorized access.

MONITORED via 2 checks

Staff devices should have disk encryption enabled	✓
Endpoint Security Policy	✓

Control SDC 46

Entity has set up measures to perform security and privacy compliance checks on the software versions and patches of remote devices prior to the establishment of the internal connection.

MONITORED via 5 checks

Staff devices should have OS updated	✓
Endpoint Security Policy	✓
Asset Management Policy	✓
Physical and Environmental Security Procedure	✓
Asset Management Procedure	✓

**Control** SDC 47

Entity ensures that endpoints with access to critical servers or data are configured to auto-screen-lock after 15 minutes of inactivity.

MONITORED via 3 checks

Staff devices health should be monitored regularly	✓
Staff devices should have screen lock enabled	✓
Endpoint Security Policy	✓

Control SDC 48

Entity has a documented policy that provides guidance on decommissioning of information assets that contain classified information.

MONITORED via 1 check

Media Disposal Policy	✓
-----------------------	---

164.310(c)

Workstation security: Covered entities should implement physical safeguards for all workstations that access ePHI, to restrict access to authorized users.

INTERNAL CONTROLS AND CHECKS**Control** SDC 44

Where applicable, Entity ensures that endpoints with access to critical servers or data must be protected by malware-protection software.

MONITORED via 5 checks

Staff devices should have antivirus running	✓
Endpoint Security Policy	✓
Asset Management Policy	✓
Physical and Environmental Security Procedure	✓
Asset Management Procedure	✓

**Control** SDC 45

Where applicable, Entity ensures that endpoints with access to critical servers or data must be encrypted to protect from unauthorized access.

MONITORED via 2 checks

Staff devices should have disk encryption enabled	✓
Endpoint Security Policy	✓

Control SDC 46

Entity has set up measures to perform security and privacy compliance checks on the software versions and patches of remote devices prior to the establishment of the internal connection.

MONITORED via 5 checks

Staff devices should have OS updated	✓
Endpoint Security Policy	✓
Asset Management Policy	✓
Physical and Environmental Security Procedure	✓
Asset Management Procedure	✓

Control SDC 47

Entity ensures that endpoints with access to critical servers or data are configured to auto-screen-lock after 15 minutes of inactivity.

MONITORED via 3 checks

Staff devices health should be monitored regularly	✓
Staff devices should have screen lock enabled	✓
Endpoint Security Policy	✓

Control SDC 48

Entity has a documented policy that provides guidance on decommissioning of information assets that contain classified information.

MONITORED via 1 check

Media Disposal Policy

**Control** SDC 104

Entity has documented policies and procedures for endpoint security and related controls.

MONITORED via 3 checks

Endpoint Security Policy

Asset Management Policy

Asset Management Procedure

**164.310(d)(1)**

Device and media control: Implement policies and procedures that govern the receipt and removal of hardware and electronic media that contain ePHI into and out of a facility, and the movement of these items within the facility.

INTERNAL CONTROLS AND CHECKS**Control** SDC 48

Entity has a documented policy that provides guidance on decommissioning of information assets that contain classified information.

MONITORED via 1 check

Media Disposal Policy

**Control** SDC 105

Entity establishes guidelines for acceptable and unacceptable technology usage behaviors, including outlining consequences for unacceptable actions.

MONITORED via 1 check

Acceptable Usage Policy

**Control** SDC 382

Entity has documented policy and procedures for physical and/or logical labeling of information via documented policy for data classification.

MONITORED via 1 check

Data Classification Policy

**Control** SDC 70

Entity performs physical and/or logical labeling of information systems as per the guidelines documented policy defined for data classification

MONITORED via 1 check

Data Classification Policy

**Control** SDC 69

Entity has a documented Information Security Policy that governs the confidentiality, integrity, and availability of information systems

MONITORED via 1 check

Information Security Policy

**Control** SDC 390

Entity develops, documents, and maintains an inventory of organizational endpoint systems, including all necessary information to achieve accountability.

MONITORED via 3 checks

Staff devices health should be monitored regularly

Endpoint Security Policy

Asset Management Procedure

**164.310(d)(2)(i)**

Disposal: Implement policies and procedures to address the final disposition of ePHI, and/or the hardware or electronic media on which it is stored.

INTERNAL CONTROLS AND CHECKS

Control SDC 48

Entity has a documented policy that provides guidance on decommissioning of information assets that contain classified information.

MONITORED via 1 check

Media Disposal Policy

164.310(d)(2)(ii)

Media re-use: Implement procedures for removal of ePHI from electronic media before the media are made available for re-use. Ensure that ePHI previously stored on electronic media cannot be accessed and reused. Identify removable media and their use. Ensure that ePHI is removed from reusable media before they are used to record new information.

INTERNAL CONTROLS AND CHECKS

Control SDC 70

Entity performs physical and/or logical labeling of information systems as per the guidelines documented policy defined for data classification

MONITORED via 1 check

Data Classification Policy

Control SDC 382

Entity has documented policy and procedures for physical and/or logical labeling of information via documented policy for data classification.

MONITORED via 1 check

Data Classification Policy

164.310(d)(2)(iii)

Accountability: Maintain a record of the movements of hardware and electronic media and any person responsible therefore.

INTERNAL CONTROLS AND CHECKS

Control SDC 70

Entity performs physical and/or logical labeling of information systems as per the guidelines documented policy defined for data classification

MONITORED via 1 check

Data Classification Policy

Control SDC 71

Entity has a documented policy outlining guidelines for the disposal and retention of information.

MONITORED via 1 check

Data Retention Policy

Control SDC 72

Entity has a documented policy and procedures to provide guidelines for Data Protection which includes staff members' responsibilities with handling personal data as per the company's regulatory requirements

MONITORED via 1 check

Data Protection Policy

Control SDC 48

Entity has a documented policy that provides guidance on decommissioning of information assets that contain classified information.

MONITORED via 1 check

Media Disposal Policy

**Control** SDC 104

Entity has documented policies and procedures for endpoint security and related controls.

MONITORED via 3 checks

Endpoint Security Policy	
Asset Management Policy	
Asset Management Procedure	

164.310(d)(2)(iv)

Data backup and storage: Create a retrievable, exact copy of ePHI, when needed, before movement of equipment.

INTERNAL CONTROLS AND CHECKS**Control** SDC 58

Entity has a documented policy on managing Data Backups and makes it available for all relevant staff on the company employee portal

MONITORED via 2 checks

Operation Security Policy	
Operations Security Procedure	

Control SDC 59

Entity backs up relevant user and system data regularly to meet recovery time and recovery point objectives and verifies the integrity of these backups.

MONITORED via 5 checks

Backup should be enabled on production database	
Versioning should be enabled for storage assets	
Operation Security Policy	

Business Continuity Plan

Operations Security Procedure

164.312

Technical safeguards

164.312(a)(1)

Access control: Implement technical policies and procedures for electronic information systems that maintain ePHI to allow access only to those persons or software programs that have been granted access rights as specified in §164.308(a)(4) [Information Access Management].

INTERNAL CONTROLS AND CHECKS

Control SDC 33

Entity has documented policies and procedures to manage Access Control and an accompanying process to register and authorize users for issuing system credentials which grant the ability to access the critical systems.

MONITORED via 2 checks

Access Control Procedure

Access Control Policy

Control SDC 34

Entity ensures that logical access provisioning to critical systems requires approval from authorized personnel on an individual need or for a predefined role.

MONITORED via 6 checks

User access to critical system should be validated by roles

Role based access should be setup

HR Security Procedure

Access Control Procedure

HR Security Policy

Access Control Policy

**Control** SDC 35

Entity ensures logical access that is no longer required in the event of termination is made inaccessible in a timely manner.

MONITORED via 5 checks

Offboarded staff access to critical systems should be revoked	
HR Security Procedure	
Access Control Procedure	
HR Security Policy	
Access Control Policy	

Control SDC 37

Entity ensures that access to the production databases is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 8 checks

Access to critical systems should be reviewed	
IAM users should be assigned roles with least access	
Policies should be attached to groups and should not be attached to users	
Users of critical system should be identified	
Accounts should not have admin privileges	
Cloud storage buckets should have uniform bucket-level access enabled	
Access Control Procedure	
Access Control Policy	

Control SDC 38

Entity ensures that the production databases access and Secure Shell access to infrastructure entities are protected from public internet access.

MONITORED via 1 check

Public access for infra assets should be restricted	
---	--

**Control** SDC 39

Entity requires that all staff members with access to any critical system be protected with a secure login mechanism such as Multifactor-authentication.

MONITORED via 3 checks

Critical systems should be protected with a secure login mechanism	✓
--	---

Access Control Procedure	✓
--------------------------	---

Access Control Policy	✓
-----------------------	---

DECLARED via 1 check

Access should be protected with secure login mechanism	✓
--	---

Control SDC 42

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed	✓
---	---

Users of critical system should be identified	✓
---	---

Access Control Procedure	✓
--------------------------	---

Access Control Policy	✓
-----------------------	---

Control SDC 43

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that administrative access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed	✓
---	---

Users of critical system should be identified	✓
---	---

Access Control Procedure	✓
--------------------------	---

Access Control Policy	✓
-----------------------	---

**164.312(a)(2)(i)**

Unique user identification: Assign a unique name and/or number for identifying and tracking user identity. Ensure that system activity can be traced to a specific user. Ensure that the necessary data is available in the system logs to support audit and other related business functions.

INTERNAL CONTROLS AND CHECKS**Control SDC 39**

Entity requires that all staff members with access to any critical system be protected with a secure login mechanism such as Multifactor-authentication.

MONITORED via 3 checks

Critical systems should be protected with a secure login mechanism	✓
Access Control Procedure	✓
Access Control Policy	✓
DECLARED via 1 check	
Access should be protected with secure login mechanism	✓

Control SDC 37

Entity ensures that access to the production databases is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 8 checks

Access to critical systems should be reviewed	✓
IAM users should be assigned roles with least access	✓
Policies should be attached to groups and should not be attached to users	✓
Users of critical system should be identified	✓
Accounts should not have admin privileges	✓
Cloud storage buckets should have uniform bucket-level access enabled	✓
Access Control Procedure	✓
Access Control Policy	✓

Control SDC 38

Entity ensures that the production databases access and Secure Shell access to infrastructure entities are protected from public internet access.

MONITORED via 1 check

Public access for infra assets should be restricted

Control SDC 42

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed

Users of critical system should be identified

Access Control Procedure

Access Control Policy

Control SDC 43

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that administrative access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed

Users of critical system should be identified

Access Control Procedure

Access Control Policy

164.312(a)(2)(ii)

Emergency access procedure: Establish (and implement as needed) procedures for obtaining necessary ePHI during an emergency.

INTERNAL CONTROLS AND CHECKS

Control SDC 53

Entity has established a policy and procedure which includes guidelines to be undertaken in response to information security incidents.

MONITORED via 2 checks

Incident Management Procedure

Incident Management Policy

**Control** SDC 392

Entity has documented guidelines to manage Disaster Recovery that establish guidelines and procedures for continuing business operations in case of a disruption or a security incident

MONITORED via 2 checks

Business Continuity Plan

Business Continuity & Disaster Recovery Policy

**Control** SDC 393

Entity has documented policies and procedures that establish guidelines for continuing business operations and facilitate the application of contingency planning controls.

MONITORED via 2 checks

Business Continuity Plan

Business Continuity & Disaster Recovery Policy

**164.312(a)(2)(iii)**

Automatic logoff: Implement electronic procedures that terminate an electronic session after a predetermined time of inactivity.

INTERNAL CONTROLS AND CHECKS

**Control** SDC 47

Entity ensures that endpoints with access to critical servers or data are configured to auto-screen-lock after 15 minutes of inactivity.

MONITORED via 3 checks

Staff devices health should be monitored regularly	✓
Staff devices should have screen lock enabled	✓
Endpoint Security Policy	✓

Control SDC 109

Entity ensures infrastructure cloud provider login sessions are terminated after a defined length of time.

MONITORED via 2 checks

Access Control Procedure	✓
Access Control Policy	✓
DECLARED via 1 check	
Login Session Termination	✓

164.312(a)(2)(iv)

Encryption and decryption: Implement a mechanism to encrypt and decrypt ePHI.

INTERNAL CONTROLS AND CHECKS**Control** SDC 45

Where applicable, Entity ensures that endpoints with access to critical servers or data must be encrypted to protect from unauthorized access.

MONITORED via 2 checks

Staff devices should have disk encryption enabled	✓
Endpoint Security Policy	✓

**Control** SDC 49

Entity has set up cryptographic mechanisms to encrypt all production database[s] that store customer data at rest.

MONITORED via 4 checks

Data at rest should be encrypted	✓
Encryption Policy	✓
Asset Management Policy	✓
Asset Management Procedure	✓

Control SDC 51

Entity has set up processes to utilize standard encryption methods, including HTTPS with the TLS algorithm, to keep transmitted data confidential.

MONITORED via 2 checks

Production systems should be secured with HTTPS	✓
SSL connection should be enforced for servers	✓

Control SDC 106

Entity has a documented policy to manage encryption and cryptographic protection controls.

MONITORED via 1 check

Encryption Policy	✓
-------------------	---

164.312(b)

Audit controls: Implement hardware, software, and/or procedural mechanisms that record and examine activity in information systems that contain or use ePHI.

INTERNAL CONTROLS AND CHECKS**Control** SDC 61

Entity's infrastructure is configured to review and analyze audit events to detect anomalous or suspicious activity and threats

MONITORED via 1 check

Threat detection system should be enabled

Control SDC 62

Entity has set up methods to continuously monitor critical assets to generate capacity alerts to ensure optimal performance, meet future capacity requirements, and protect against denial-of-service attacks.

MONITORED via 4 checks

Health of production infrastructure should be monitored

Errors on production infrastructure should be monitored

Operation Security Policy

Operations Security Procedure

Control SDC 394

Entity's infrastructure is configured to generate audit events for actions of interest related to security for all critical systems.

MONITORED via 3 checks

Audit logs should exist

Operation Security Policy

Operations Security Procedure

164.312(c)(1)

Integrity: Implement policies and procedures to protect ePHI from improper alteration or destruction.

INTERNAL CONTROLS AND CHECKS

Control SDC 71

Entity has a documented policy outlining guidelines for the disposal and retention of information.

**MONITORED** via 1 check

Data Retention Policy

**Control** SDC 72

Entity has a documented policy and procedures to provide guidelines for Data Protection which includes staff members' responsibilities with handling personal data as per the company's regulatory requirements

MONITORED via 1 check

Data Protection Policy

**Control** SDC 70

Entity performs physical and/or logical labeling of information systems as per the guidelines documented policy defined for data classification

MONITORED via 1 check

Data Classification Policy

164.312(c)(2)

Mechanisms to authenticate ePHI □ Implement electronic mechanisms to corroborate that ePHI has not been altered or destroyed in an unauthorized manner.

INTERNAL CONTROLS AND CHECKS

Control SDC 61

Entity's infrastructure is configured to review and analyze audit events to detect anomalous or suspicious activity and threats

MONITORED via 1 check

Threat detection system should be enabled

**Control** SDC 63

Entity identifies vulnerabilities on the company platform through an annual penetration testing exercise conducted by a qualified third-party service provider.

MONITORED via 1 check

VAPT exercise should be conducted annually

Control SDC 62

Entity has set up methods to continuously monitor critical assets to generate capacity alerts to ensure optimal performance, meet future capacity requirements, and protect against denial-of-service attacks.

MONITORED via 4 checks

Health of production infrastructure should be monitored

Errors on production infrastructure should be monitored

Operation Security Policy

Operations Security Procedure

Control SDC 56

Entity tracks all vulnerabilities and remediates them as per the policy and procedure defined to manage vulnerabilities.

MONITORED via 1 check

Vulnerability should be closed in SLA

Control SDC 55

Entity identifies vulnerabilities on the Company platform through the execution of regular vulnerability scans.

MONITORED via 2 checks

Vulnerability should be closed in SLA

Vulnerability scanner should be enabled

**164.312(d)**

Person or entity authentication: Implement procedures to verify that a person or entity seeking access to ePHI is the one claimed.

INTERNAL CONTROLS AND CHECKS**Control SDC 33**

Entity has documented policies and procedures to manage Access Control and an accompanying process to register and authorize users for issuing system credentials which grant the ability to access the critical systems.

MONITORED via 2 checks

Access Control Procedure	✓
Access Control Policy	✓

Control SDC 34

Entity ensures that logical access provisioning to critical systems requires approval from authorized personnel on an individual need or for a predefined role.

MONITORED via 6 checks

User access to critical system should be validated by roles	✓
Role based access should be setup	✓
HR Security Procedure	✓
Access Control Procedure	✓
HR Security Policy	✓
Access Control Policy	✓

Control SDC 35

Entity ensures logical access that is no longer required in the event of termination is made inaccessible in a timely manner.

MONITORED via 5 checks

Offboarded staff access to critical systems should be revoked	✓
HR Security Procedure	✓

Access Control Procedure	✓
HR Security Policy	✓
Access Control Policy	✓

Control SDC 37

Entity ensures that access to the production databases is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 8 checks

Access to critical systems should be reviewed	✓
IAM users should be assigned roles with least access	✓
Policies should be attached to groups and should not be attached to users	✓
Users of critical system should be identified	✓
Accounts should not have admin privileges	✓
Cloud storage buckets should have uniform bucket-level access enabled	✓
Access Control Procedure	✓
Access Control Policy	✓

Control SDC 38

Entity ensures that the production databases access and Secure Shell access to infrastructure entities are protected from public internet access.

MONITORED via 1 check

Public access for infra assets should be restricted	✓
---	---

Control SDC 39

Entity requires that all staff members with access to any critical system be protected with a secure login mechanism such as Multifactor-authentication.

MONITORED via 3 checks

Critical systems should be protected with a secure login mechanism	✓
Access Control Procedure	✓
Access Control Policy	✓

**DECLARED** via 1 check

Access should be protected with secure login mechanism

**Control** SDC 42

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed

Users of critical system should be identified

Access Control Procedure

Access Control Policy

**Control** SDC 43

Entity's Senior Management or the Information Security Officer periodically reviews and ensures that administrative access to the critical systems is restricted to only those individuals who require such access to perform their job functions.

MONITORED via 4 checks

Access to critical systems should be reviewed

Users of critical system should be identified

Access Control Procedure

Access Control Policy

164.312(e)(1)

Transmission security: Implement technical security measures to guard against unauthorized access to ePHI that is being transmitted over an electronic communications network.

INTERNAL CONTROLS AND CHECKS

Control SDC 70

Entity performs physical and/or logical labeling of information systems as per the guidelines documented policy defined for data classification

MONITORED via 1 check

Data Classification Policy

Control SDC 69

Entity has a documented Information Security Policy that governs the confidentiality, integrity, and availability of information systems

MONITORED via 1 check

Information Security Policy

Control SDC 106

Entity has a documented policy to manage encryption and cryptographic protection controls.

MONITORED via 1 check

Encryption Policy

Control SDC 49

Entity has set up cryptographic mechanisms to encrypt all production database[s] that store customer data at rest.

MONITORED via 4 checks

Data at rest should be encrypted

Encryption Policy

Asset Management Policy

Asset Management Procedure

Control SDC 51

Entity has set up processes to utilize standard encryption methods, including HTTPS with the TLS algorithm, to keep transmitted data confidential.

**MONITORED** via 2 checks

Production systems should be secured with HTTPS

SSL connection should be enforced for servers

**Control** SDC 45

Where applicable, Entity ensures that endpoints with access to critical servers or data must be encrypted to protect from unauthorized access.

MONITORED via 2 checks

Staff devices should have disk encryption enabled

Endpoint Security Policy

**Control** SDC 75

Entity maintains an inventory of categories of personal information collected along with its usage, sources and specific purposes for collection as per regulatory requirements ("Record of Processing Activities") and reviews it on an annual basis

DECLARED via 1 check

Records of Processing Activities (ROPA) & Data flow map

164.312(e)(2)(i)

Integrity controls: Implement security measures to ensure that electronically transmitted ePHI is not improperly modified without detection until disposed of.

INTERNAL CONTROLS AND CHECKS

Control SDC 106

Entity has a documented policy to manage encryption and cryptographic protection controls.

MONITORED via 1 check

Encryption Policy

**Control** SDC 7

Entity provides information security and privacy training to staff that is relevant to their job function.

MONITORED via 2 checks

Security training provider should be configured

HR Security Policy

**Control** SDC 6

Entity has established procedures for new staff to acknowledge applicable company policies as a part of their onboarding.

MONITORED via 1 check

Policies should be acknowledged by onboarded staff

**164.312(e)(2)(ii)**

Encryption: Implement a mechanism to encrypt ePHI whenever deemed appropriate.

INTERNAL CONTROLS AND CHECKS**Control** SDC 45

Where applicable, Entity ensures that endpoints with access to critical servers or data must be encrypted to protect from unauthorized access.

MONITORED via 2 checks

Staff devices should have disk encryption enabled

Endpoint Security Policy

**Control** SDC 49

Entity has set up cryptographic mechanisms to encrypt all production database[s] that store customer data at rest.

**MONITORED** via 4 checks

Data at rest should be encrypted	✓
Encryption Policy	✓
Asset Management Policy	✓
Asset Management Procedure	✓

Control SDC 51

Entity has set up processes to utilize standard encryption methods, including HTTPS with the TLS algorithm, to keep transmitted data confidential.

MONITORED via 2 checks

Production systems should be secured with HTTPS	✓
SSL connection should be enforced for servers	✓

Control SDC 106

Entity has a documented policy to manage encryption and cryptographic protection controls.

MONITORED via 1 check

Encryption Policy	✓
-------------------	---

164.316**Policies, procedures and documentation requirements****164.316(a)**

Policies and Procedures: Implement reasonable and appropriate policies and procedures to comply with the standards, implementation specifications, or other requirements of this subpart, taking into account those factors specified in 164.306(b)(2)(i), (ii), (iii), and (iv) [the Security Standards: General Rules, Flexibility of Approach]. This standard is not to be construed to permit or excuse an action that violates any other standard. A covered entity or business associate may change its policies and procedures at any time, provided that the changes are documented and are implemented in accordance with this subpart.

INTERNAL CONTROLS AND CHECKS

Control SDC 24

Entity's Senior Management reviews and approves all company policies annually.

MONITORED via 1 check

Policies should be reviewed by senior management

**Control** SDC 31

Entity has documented a set of policies and procedures that establish expected behavior with regard to the Company's control environment.

MONITORED via 1 check

Org policy should be defined

**Control** SDC 111

Entity ensures that all policy documents are retained for at least (6) years from creation.

MONITORED via 1 check

Org policy should be defined

**164.316(b)(1)(i)**

Documentation: Maintain the policies and procedures implemented to comply with this subpart in written (which may be electronic) form; and (ii) if an action, activity or assessment is required by this subpart to be documented, maintain a written (which may be electronic) record of the action, activity, or assessment.

INTERNAL CONTROLS AND CHECKS

Control SDC 24

Asset Management Procedure

Control SDC 19

Each risk is assessed and given a risk score in relation to the likelihood of it occurring and the potential impact on the security, availability, and confidentiality of the Company platform. Risks are mapped to mitigating factors that address some or all of the risk.

MONITORED via 1 check

Risk assessment should be conducted periodically

Control SDC 23

Entity uses Sprints, a continuous monitoring system, to track and report the health of the information security program to the Information Security Officer and other stakeholders.

DECLARED via 1 check

Internal Audit

Control SDC 49

Entity has set up cryptographic mechanisms to encrypt all production database[s] that store customer data at rest.

MONITORED via 4 checks

Data at rest should be encrypted

Encryption Policy

Asset Management Policy

Asset Management Procedure

Control SDC 52

Entity develops, documents, and maintains an inventory of organizational infrastructure systems, including all necessary information to achieve accountability.

MONITORED via 1 check

Critical Infrastructure assets should be identified

Control SDC 59

Entity backs up relevant user and system data regularly to meet recovery time and recovery point objectives and verifies the integrity of these backups.

MONITORED via 5 checks

Backup should be enabled on production database	
Versioning should be enabled for storage assets	
Operation Security Policy	
Business Continuity Plan	
Operations Security Procedure	

Control SDC 62

Entity has set up methods to continuously monitor critical assets to generate capacity alerts to ensure optimal performance, meet future capacity requirements, and protect against denial-of-service attacks.

MONITORED via 4 checks

Health of production infrastructure should be monitored	
Errors on production infrastructure should be monitored	
Operation Security Policy	
Operations Security Procedure	

Control SDC 69

Entity has a documented Information Security Policy that governs the confidentiality, integrity, and availability of information systems

MONITORED via 1 check

Information Security Policy	
-----------------------------	--

Control SDC 74

Entity ensures appropriate procedures are in place to ensure compliance with regulatory requirements related to transfer of personal data outside of the region from which it is collected

MONITORED via 2 checks

Vendor risk assessment should be conducted periodically

Vendor Management Policy

Control SDC 114
